METHOD OF MANUFACTURING UNVULCANIZED ADHESIVE  
WATERPROOF SHEET AND  
CONSTRUCTION METHOD USING THE SAME

This application relies for priority upon Korean Patent  
5 Application No. 1999-50626, filed on November 15, 1999, the  
contents of which are herein incorporated by reference in their  
entirety.

FIELD OF THE INVENTION

10 The present invention generally relates to a method for  
manufacturing of an unvulcanized adhesive waterproof sheet and  
a construction method using the sheet. Particularly, the present  
invention relates to a method of manufacturing an unvulcanized  
adhesive waterproof sheet for waterproofing of a cut and cover  
15 tunnel, an underground building structure, or a concrete structure  
such as a building wall or an underground driveway. And,  
particularly, the present invention relates to a construction method  
using the sheet.

20 BACKGROUND OF THE INVENTION

As civil and construction technologies have progressed,  
complex and difficult construction methods can now easily be  
accomplished. However, defects often occur in waterproof  
construction situations. The defects cause water leakage and  
25 flooding. Moreover, the defects can cause a completed structure
